## Higher Ground Featured Product – Shuttle 2.0

The Shuttle allows you to work directly from the case, providing full-time protection.

The cooldeck's non-slip riser pads facilitate airflow, keeping both your lap and computer cooler. An external document pocket will accommodate a few magazines in thickness, while the accessory pocket provides just enough room for the essentials (power supply, cables, etc).

The vertical design aligns with your body to easily slip through crowded or congested areas. It also reduces the distance to the ground in the event of a fall.

Elegant simplicity is combined with road-warrior protection to provide everything you need in a compact case.

### FEATURES

- 13" accommodates 33 x 23.5 x 3.2 cm, (700 grams)
- 14" accommodates 35.3 x 26.7 x 3.2 cm, (778 grams)
- 15" accommodates 36.8 x 27.2 x 4.5 cm, (858 grams)
- Full-time protection (laptop never has to leave the case)
- Vertical design reduces the 'drop zone' distance
- Cooldeck for computer heat dissipation
- Shields your lap from excessive heat build up
- Single shoulder strap included
- Designed for use on your lap or desktop surface
- Rigid frame & shock absorbing foam padding throughout
- All stress points are reinforced
- Constructed using the finest expedition grade fabrics
- All fabrics coated with heavy waterproof coating
- Available in Black and Royal Blue (depending on size)
- Custom sizes and colours available. Conditions apply.
