‘Designed by Teachers, for Teachers’

In response to the Digital Education Revolution initiative, PC Locs has developed a revolutionary, cost-effective and highly functional range of products that are designed to secure, transport, charge and store your school’s laptop and notebook computers.

Designed and priced for schools with restricted budgets, the Revolution Range of products feature straightforward design and maximum protection.

- Accommodates laptops from 7” to 17”
- Removable steel security locking bars
- Conventional and compact vertical laptop storage
- 240V power sockets for charging the laptop
- Designed to accommodate standard width doorways
